and come to this city. Irwin and Cole left Chicago without being seen and ar-rived here yesterday afternoon. Farrell sent word to the reporters to meet Cole at the club's headquarters, where the King went into details.

Cole said that his lawyer had advised bim that the acceptance of his terms which were named on December 23 by Parrell constituted a legal contract and that he had come here to fix the matter up. He declared that the Federal League contract and the contract of the contract and the contract of tract he signed in Chleago on December 30 did not contain a ten days notice of release clause, for he had made Weeghman strike it out. He added that he did not know that there was a reserve or option clause in the contract, and that the salary

"I didn't tell the Federals I was coming here," remarked the big pitcher. "I am going to do what I think is right. I am out for the money and if everything is 0. K. I'll sign with Mr. Farrell to-morrow. The Federals are strong in Chicago.

They will start no matter what it costs.

Cole did nothing to speak of in Pitts-burg and Dreyfuss soon sent him to Co-lumbus. Finding bimself in the minors, Cole took a brace last year and pitched in old time form for Columbus. In the opinion of many scouts he did better work in the box than George McQuillan of the same team, who was purchased by Pirates in midseason.

The Columbus club refused to sell his

release for \$10,000, which was offered by several major league clubs, and al-lowed him to go to the draft, believing that possibly he might not be taken away. Cole was drafted by the New York Americans, however, for \$2,500 and President Farrell at once received several \$10,000 offers for him, but Chance, who developed Cole in 1910, decided to hang on. Cole pitched in forty-six games for Columbus last year, winning 23 and losing 11. His percentage of victories was ing 11. Federal Head Gets Black Hand Letter

CHICAGO, Feb. 2.—President Gilmore of the Federal League received a Black Hand letter to-day in which he, his home and the proposed ball park of the Federal League in Chicago were threatened by a bomb thrower if he did not retire from baseball. He also received the pleasant information that personally he stood in danger of having a knife slipped between his ribs. President Gilmore was inclined to take the whole matter as a joke, but Charles Weeghman, backer of the Chicago Federal League team, is considering placing the letter in the hands of the Federal authorities.
